

Species added to the Metchosin Biodiversity Project's database of Metchosin Species during the 2017 MycoBlitz on November 3-4.

Slime molds:

*Hemitrichia* sp.

*Lycogala epidendrum*

Fungi:

*Agaricus moelleri* group

*Arrhenia obscurata* group

*Ceratocystis* sp.

*Ceriporia spissa*

*Clarvaria vermicularis*

*Clitocybe avellaneialba*

*Clitocybe vibecina*

*Daedaleopsis confragosa*

*Endocronartium harknessii*

*Galerina marginata*

*Hypholoma dispersum*

*Hypocrea pulvinata*

*Lactarius olympianus*

*Laetiporus conifericola*

*Lepiota rubrotinctoides*

*Limacella glioderma*

*Lycoperdon echinatum*

*Melanotus horizontalis*

*Mycena aurantiomarginata*

*Peziza repanda*

*Pleurotus dryinus*

*Psilocybe pelliculosa*

*Pucciniastrum goeppertianum*

*Roridomyces roridus*

*Russula crassotunicata*

*Russula densifolia*

*Russula sardonica*

*Suillus brevipes*

*Suillus granulatus*

*Tricholoma imbricatum*

*Tricholoma inamoenum*

In addition, Brenda Callan and Roo Vandegrift recorded 13 pyrenomycetes, rusts, and discomycetes:

*Melanospora lagenaria* (Pers.) Fuckel

*Nemania maritima* Y.M. Ju & J.D. Rogers

*Nemania aenea* var. *macrospora* (J.H. Mill.) Y.M. Ju & J.D. Rogers

*Amphisphaeria* sp.

*Datroniella scutellata* (Schwein.) B.K. Cui, Hai J. Li & Y.C. Dai

*Hypoxylon fuscum* (Pers.) Fr.

*Hypoxylon novemexicanum* J.H. Miller

*Nemania serpens* var. *hydnicola* (Schwein.) Y.M. Ju & J.D. Rogers

*Diatrype disciformis* (Hoffm.) Fr.

*Jackrogersella multiformis* (Fr.) L. Wendt, Kuhnert & M. Stadler

*Biscogniauxia mediterranea* var. *mediterranea* (De Not.) Kuntze

*Propolis versicolor* (Fr.)Fr.

*Phragmidium violaceum* (Schultz) G. Winter
